

Cromwell Medical Clinic

Melissa Herbranson MD
Family Medicine

New Ownership of The Clinic

Dr. Herbranson will be starting to see patients in February 2025. She will be taking over ownership from Dr. Bode at that time as well. She enjoys full spectrum Family Practice and specializes in multiple areas:

Functional Medicine, Nutrition, and Supplements

Women's Health including prenatal care, lactation and family planning.

Pediatrics

Botox Medical

Aesthetic Skin Care

Emergency Medicine

Hometown Values

I was raised in rural Northern Minnesota and I live with my family on our Yak Farm, Twisted Pine Acres, in Kimberly. My husband and I have three young children whom we home school. I trained at the University of Minnesota, Duluth. I am coming to this practice to continue Dr. Bode's legacy of comprehensively caring for rural patients in a way that fits their needs.
